W. H. ZERBE, *New York*

W. W. ZIEG, *Pittsburgh*

*Associate members are the pictorialists who have won a place on our rolls by the consistent excellence of their contributions to our salons.*

## FOREWORD

THE Photographic Section of the Academy of Science and Art presents herewith its Fifteenth Annual Pittsburgh Salon of Photographic Art.

The exhibition can rightly be described as representing the best current work in pictorial photography. The widespread and generous interest of pictorialists in many countries, and the efforts of a critical jury applying rigorous artistic standards, have made the exhibition possible.

The committee expresses its sincere gratitude to all who participated in preparing this exhibition, especially to the officers and trustees of Carnegie Institute for the gift of the use of the galleries, and to the jury of selection for the gift of their services.

### OFFICERS

CHARLES K. ARCHER, *President*

O. C. REITER, *Honorary President*

DAVID R. CRAIG, *Vice-President*

B. H. CHATTO, *Secretary-Treasurer*

1300 Milton Avenue, Swissvale Station, Pittsburgh, Pa.

### PRINT COMMITTEE

GEORGE H. MORSE, *Chairman*

THOMAS M. JARRETT

F. O. VAN GORDER

### EXECUTIVE COMMITTEE

CHARLES K. ARCHER

B. H. CHATTO

GEORGE H. MORSE

O. C. REITER

P. F. SQUIER

### JURY OF SELECTION\*

NICHOLAS HAZ, New York City

HOLMES I. METTEE, Baltimore

PAUL WIERUM, Chicago

\*Each member of the jury of selection is invited by the Salon to exhibit four prints.

MOVEMENT

*By FRANK DRTIKOL, Prague*

# Catalogue

IF IT'S DARK OR CLOUDY, DON'T CHANGE YOUR PLANS—MAKE THE PICTURE WITH A MODERN KODAK

# PICTURES

## YOU NEVER HOPED TO MAKE

### *Are Simple "Snap-Shots" Now*

HOW often have you said to yourself, "There's a picture I'd like to make . . . but the light's too low."

How often have you waited for the rain to stop . . . or the sun to shine . . . just to get a snap-shot.

How often have you wanted to make pictures inside your house . . . of some favorite corner? Or on dark, cloudy days, of some favorite subject? *Now you can!*

For with these new-day cameras most former handicaps have been banished completely. Amateur photography has now been made simpler, surer, easier than ever before.

For example—on the \$20 1A Pocket Kodak is now supplied a lens that in 1925 was not available on any camera selling for less than \$40. This means that you get a faster, better lens, for less money. A lens that makes good pictures under the most difficult conditions.

It takes the guesswork out of making pictures—opens up thousands of new photographic opportunities. Doubles the fun in taking snap-shots.

And the Modern Kodak is simplicity itself. Everything possible has been made automatic. Things to adjust have been reduced to a minimum.

At home . . . on trips . . . every day . . . there are many times you will wish you had a Kodak. Friends, neighbors, children. Adventure, travel, romance. There's no need now to miss a single picture-making opportunity. The Modern Kodak will get the picture just as it is without your having to wait for the "right" time or setting.

Call on your Kodak dealer today. There's one right near you. Have him show you the Modern Kodaks. Load one with Eastman film from the familiar yellow box and start on a picture-taking experience full of pleasure and free from obstacles.

Write for the free new booklet about these Modern Kodaks.

# ❖ KODAK ❖

*Only Eastman Makes the Kodak*

Keep this **PRICELESS RECORD** of their  
*Childhood Days*

**H**ow fast they grow! Never the same from one day to another. Always changing . . . from babyhood to childhood, to adolescence . . . and then they're gone forever.

Don't let another day slip by without making this priceless record of your children. Keep them forever just as they are today . . . as they never will be again . . . in a wonderful movie that you make yourself.

You photograph them in action! Running . . . romping . . . laughing . . . living in their happy, carefree way. Today you can capture it all on a thin strip of film.

Every little motion is there. Every gesture, every smile, every flash of personality.

Just think what this priceless film will mean to you . . . in three, in five, in ten years' time.

The hard work is done. Now, Home Movies are as easy to make as ordinary snap-shots.

The camera is simplicity itself. No need to focus. No grinding crank. Just sight it either from waist height or eye level.

Then press the button. A shutter whirls inside and the film slides quickly behind the lens. Instantly every

**[[ . . . in a Wonderful Movie  
 that you make yourself ]]**

action within the scene before you, every expression of individuality, is reg-

istered for all time on a thin strip of film.

Now comes the greatest thrill of all. When the films are taken, your work is done. We develop them for you at no extra cost.

You simply place them in a Kodascope Projector and turn the switch. Instantly . . . almost magically . . . your screen leaps into action and you see the pictures you have made.

Official United States Government movies of the World War are also available. War Cinegraphs—200 feet per reel—\$15 each. Special authentic war picture "America Goes Over"—2,000 feet (an hour and a quarter showing), \$150.

In addition, feature films with famous stars may be rented from a Kodascope Library.

To supplement your movie program Kodak Cinegraphs, covering a variety of subjects . . . comedy, drama, cartoons, travel . . . are available at your dealer's. Price \$7.50 per 100 feet.

Today a complete outfit, Ciné-Kodak, Kodascope and Screen, may be had for as little as \$140. See your Kodak dealer or write for interesting booklet.

❖ **Ciné-Kodak** ❖

*Simplest of all Home Movie Machines*

Eastman Kodak Company, Rochester, N. Y., *The Kodak City*

# IF YOU'RE A CAMERA ENTHUSIAST . . .

And of course you *are* an enthusiast . . . else you wouldn't be interested in this exhibition! Likewise you'll like Kaufmann's Camera Department. Here are cameras—films for cameras—Cinekodak projectors—Bromoil supplies. One of our popular services is the Film Rental Library where you may procure 400-foot reels of comedy, travel, and educational pictures for home showing on your 16mm projector. The rental is \$1.25 for 24 hours.

## *Voigtländer Cameras*

Undoubtedly you know these cameras, imported from Germany. They're pocket size, and of splendid quality.

The Avis . . . size  $3\frac{1}{4} \times 4\frac{1}{4}$  . . . is \$39. This is equipped with F 4.5 anastigmat lens and Compur shutter, and it uses film packs or plates.

Roll Film Cameras, sizes  $2\frac{1}{4} \times 3\frac{1}{4}$  at \$27 . . . and  $2\frac{1}{2} \times 4\frac{1}{4}$  at \$33. With F 4.5 anastigmat lens and Compur shutter.

*Camera Department—Second Floor*

**KAUFMANN'S**  
FIFTH AVENUE PITTSBURGH

# Many Factors

are involved in the making of the picture—selection of subject, composition, lighting, exposure, skillful manipulation of the plate or film—but it is the print that tells the story. And the print is paper.

Professional Cyko, Cylko, Enlarging Cyko, Enlarging Cylko, Ansco Contest Paper, and the new Ansco Bromide are mediums of expression which reward the photographer with a completely satisfactory result.

**Ansco Photoproducts, Inc.**

**Binghamton, N. Y.**

# What Do You Expect of Your Photographic Dealer

THE average professional photographer naturally expects his dealer to supply him with the equipment, accessories and necessities of his profession — whenever these are required.

This is but the usual, expected kind of service. Far beyond that, however, is the WILLOUGHBY helpful service — which embraces the idea of acquainting the photographer as soon as the knowledge comes to us with every new advancement made in his profession — whether in mechanics, methods or effects.

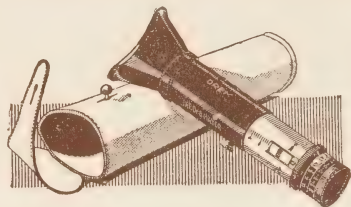

To serve you better, we must—and we do—keep pace with every trend which helps to advance the profession.

## WILLOUGHBY'S

110 West 32nd Street . . . New York

# Drem Automatic Exposure Meters

**JUSTOPHOT**, for STILL cameras, gives directly selective readings for 1/25, 1/5, 4 and 30 seconds. Compares all stops with the correlated exposure time and vice versa; indicates the influence of plate speeds upon exposure time. Readings from 1/1500 second to 30 minutes on time ring, and from f1 to f4.5 on stop ring.

Complete, with sole leather case and instruction book, \$10.50

**CINOPHOT**, for PROFESSIONAL and GENERAL MOTION PICTURE work, direct and selective readings for 1/25, 1/5, 4 and 30 seconds, indicates instantly the correct lens aperture for normal frequency; allowance for slow and superspeed; exposure for titles and stills; adjustment for VARIABLE SHUTTER SECTOR angles; readings for diaphragm opening up to f1.4; comparison of associated stops with exposures from 1/1000 to 30 seconds.

Complete, with sole leather case and instruction book, \$12.50

**DREMOPHOT**, for AMATEUR MOTION PICTURE WORK. Direct and instant determination of lens aperture from f1.8 to f4.5, on Cine-Kodak film and material of similar sensitiveness at normal frequency. Simple adjustment for frequencies from 8 to 128 exposures per second. Particularly suited for use with Filmo Cameras and the like.

Complete, with sole leather case and instruction book, \$12.50

**DREMMETER**, an exposure gauge for CONTACT prints and ENLARGEMENTS, on sensitized paper, enlarged negatives and positives on film or glass, lantern slides, etc.

Dremmeters furnish—by one single exposure—twelve graduated test images on a single strip, for discriminating selection.

On 3 1/4 x 1 1/4-inch film, each, \$1.00

# Bromoil and Bromoil Transfer

## All Materials and Accessories

Devised, perfected, personally supervised and tested by

DR. EMIL MAYER

Drem **BROMOIL PAPER**, a special emulsion of high swelling temperature, white or chamois.

Drem **COPPERPLATE TRANSFER PAPER**, the wonderful printing paper of the Master etchers, highly absorbent.

Drem **BROMOIL BLEACHING POWDER**, in cartridges, instant, perfect, permanent.

Drem **BROMOIL PIGMENTS**, in collapsible tubes, clean working, very quick drying, blending, all colors of equal consistency. Standard set of five colors and Medium, or selection of 29 single colors, and three color process set.

Drem **BROMOIL BRISTLE BRUSHES**, working surface up to 3 1/2 inches, specially selected bristles, bound in fourfold wire loops, exceedingly elastic and durable.

Drem **BROMOIL TRANSFER PRESSES**, specially designed, non-slipping, central pressure regulation.

Drem **COMPLETE BROMOIL SETS** and **TRIAL OUTFITS**, containing an expertly selected set of materials and accessories.

Drem **BROMOIL ACCESSORIES**: mastic rubber, pigment spreaders, atomizers, stumps, tear-off palette blocks, special developer, intensifier, etc.

**MANUAL OF BROMOIL AND TRANSFER**, by Dr. Emil Mayer. Translation and notes by Joseph M. Bing. (Practical Photography Series No. 12.)

*The finest home movies are made with*  
**BELL & HOWELL EQUIPMENT**

Bell & Howell *professional* equipment has been the standard in the production of theatre movies for twenty-one years. The same high quality of movie photography and projection is guaranteed you by Bell & Howell *Filmo* equipment for the amateur.

The Bell & Howell Filmo Camera is astonishingly simple in operation, yet takes movies that are mirror-like reproductions of living scenes. Adaptable to all conditions of light, speed and distance.

Filmo Projector is likewise adaptable to every requirement of showing home or business movies. Projects absolutely flickerless pictures. Runs backward, forward, or stops on single frame. Has fast automatic rewind.

Eyemo Camera, using standard (35 mm.) film is a beautiful instrument for professional or semi-professional movie making. Write for our new booklet, "Home Movies of the Better Kind," in which all the above are fully described.

## What Do You Expect from a Photographic Magazine?

**T**HE average man or woman expects a photographic magazine to supply helpful, practical information in an understandable and interesting manner. There must not be too many formulas, technical expressions and "dry" scientific data. The average owner of a camera is not a scientist. Those who like mathematics and photographic chemistry will find many sources of information in textbooks. **Photo-Era Magazine** is edited for the educated man or woman who has adopted photography as a hobby or in connection with professional duties. It aims to supply practical information in an interesting manner, to include photographic travel-articles, interesting bits of news and inspirational material which encourages and stimulates the reader. It addresses itself to students in our schools and colleges, and believes in promoting still and motion-picture photography wherever either or both may serve art, science and industry. Lastly, it believes in cordial editorial contact with its readers whether they are beginners, pictorialists or professionals.

There are three monthly competitions: for advanced workers, beginners and those who employ the services of a photo-finisher. **The motion-picture department was the first in any American photographic publication and is edited by Herbert C. McKay, A. R. P. S. Photo-Era Magazine** is known internationally. It makes no claims other than that it tries to live up to its reputation of being a well-printed, interesting and influential photographic magazine. The regular readers of **Photo-Era Magazine** are best qualified to describe it and to state why it is worth having on the living-room table, at the camera club, in the school-library and the industrial photographic laboratory.

Send ten cents for a specimen copy, or better yet, send \$2.50 for a year's subscription in the United States and Possessions. Canadian subscription, \$2.85; foreign, \$3.25.

## What Is the Insured Savings Plan?

THE Peoples Insured Savings Plan is a 4% Savings Account with the Peoples Savings and Trust Company of Pittsburgh combined with Life Insurance in the Equitable Life Assurance Society of the United States.

You deposit a small fixed sum of money each month regularly for a period of 120 months at the end of which time you receive \$1,000 or more in cash. The Plan is distinctly a "live to win" idea.

Your monthly deposit is **\$7.45** if you are between the ages of 18 and 40; **\$7.59** between the ages 41 and 45; and **\$7.84** between 46 and 50.

If you do not live to carry out your program, at your death, the full amount of money which you **intended** to save is paid at once by the Peoples Savings and Trust Company and the Equitable Life to any person you have named to receive it, provided that you have made your deposits regularly.

For example, if you are saving \$1,000 for yourself, but die after having saved only \$200 of it, The Equitable Life makes up the \$800 difference, and the entire \$1,000 goes to your children, wife, mother or whoever you have named to receive it.

The success of the Plan is assured by the fact that it has been carefully worked out by the Peoples and the Equitable, two of the strongest institutions in the country.

The deposits which go to the credit of those who join the Plan receive 4% compound interest from the Peoples Savings and Trust Company of Pittsburgh.

Any healthy person, between the ages of 18 and 50, may join. Those engaged in extra hazardous business may not join.

The booklet "\$1,000 For You" gives all details.
